Re: Rank advancement for Chuck Allison

Date: September 21, 2010

I am very pleased to write this letter in support of Chuck Allison's advancement to the rank of full professor. I have greatly enjoyed working with Chuck through the years since he joined our department.

Chuck has chaired the curriculum committee for our Computer Science track for a number of years. He is a pleasure to work with. He is extremely professional and always polite and considerate of other's input. He is considered an expert in his field by his peers in our department and among his peers in the professional community at large. He has authored or co-authored a number of books and countless papers in the field of programming and presents annually at a number of key conferences on programming. His contributions to our department, to the University, to his students, and to the field of computer science are significant. He is a strong candidate for full professor, and I highly recommend his advancement.

A handwritten signature in blue ink, appearing to be 'R. deBry'.
