Thank you, I download the slides, then change the .zip to .pptx, so i find the source of the code. Some of the code is from your book "C and C++ Capsules", I also have that book(Chinese version).

It is code that I use in teaching my course, CS 3370, at the university. If you look at the slides you will see references to those file names.

I know the BookCode.zip is from your book "Thinking in C++, Volume 2", I find the CourseCode.ZIP is useful to me. but i don't know where the CourseCode.zip from? Was it from a book or elsewhere? Please give me the information about the CourseCode.zip.

Thank you.
