Hey Chuck, happy to help. :D

Chuck Allison was one of the better instructors I had during my time at UVU. He knew the subject matter of his classes cold, and was very good at conveying it to his students. His classes had a reputation among my classmates for being difficult, but as one student told me, "You'll know your stuff when you're done." I can recommend him as a professor without reservation.

Hope this helps! Best of luck to you! Thanks for everything.
