Chuck,

How is everything? I thought that after I graduated I would have lots of time to do stuff......

The cruel reality it just gets filled up with other stuff and some-days I miss just going to school. Anyways, back in July I started the Utah chapter of the Google Technology Group (UGTUG). Last month we had a very successful first meeting. We are holding our second meeting on September 2nd and I was wondering if you could help me spread the word down there at UVU. If its possible, I was hoping to have the attached flyer hung up in the CS building. It is a great place for people to come and learn more about Google technologies, network and share ideas. Maybe Patti could email it to the list..

Thanks again for everything, I really appreciated all the time you prepared for your classes. I enjoyed learning from you and I hope that all is well.

Gabriel Dayley

Utah Google Technology User Group

September 2nd, 2009 6pm – 8pm

Google Web Toolkit
